Will there ever be (or are there existing plans) for a Sci-Fi Accessory Set, in the style of the Dungeon Acces. set?

Cargo Pallets
Bunks
Weapons Lockers
Remote Sensors
Vacc Suits

I'd buy several. I love my Prop Box. :)

This Just In.....

Some guy on the D&D site claims to have seen pictures of two new Sci-Fi Pcs.

- 2 Pillers with wires and stuff
- 1 Computer Consule

I think these are the pieces that you can see on that Con Photo,

Not very earth shaking, but I thought it might be news. :rolleyes:

These will be out in the Sci-Fi Alpha Expansion Set due out in Oct/Nov.

And frankly, if the Sci-Fi line does well we will have some accessory packs like the Dungeon Accessories set.

Perfect record. Ogres Den was iffy at first but turns out to be kinda handy.

Have a great weekend.

Some odd ideas:

1) Large clear "fish tank" thing with wired fish things in it.

2) Large vid-screen with star maps & data.

3) An emergancy "escape pod" would be neat.

4) Holo-chess game table.

5) Weapons scanner/detector.

6) Damaged - Blown-up Floor tiles.

-- Just think out loud..... :)

Yeah but much more dangerous.....These could be mind-reading alian what-nots freak-out fish!!!! . I was thinking 2 squares long. But a bigger Baactta (SP? Star wars) tank could be cool. (bubbles etc,,)

Hope they make small grav-carts or air rafts and stuff to race around on :lol:

Know what would be cool? Laser trap triggers. Like lasers coming out of the wall like all those cliche B&E movies.
