

## Fantasy Floor Set Due To Be Releases in October

Posted by admin - 2004/05/09 17:27

---

Development of the new Fantasy Floor Set is winding down, and it looks like the product will be available near the end of October. The set will come in a smallish box with full color graphics -- much like the Sci-Fi sets. We are VERY happy with the look of the prototypes, and we can't wait to get these into the hands of our fans. There are many cool pieces in this set, and some photos will be posted soon of those prototypes.

The Fantasy Floor Set will include the following:

- 4x6 Rift floor piece
- 4x4 Lava pit piece
- 4x4 Summoning pit
- 4x4 Water Pool
- 2x4 Sarcophagus(european) with lid
- 2x2 Slaver trapdoor closed
- 2x2 Slaver trapdoor open

The price is not yet know. If the sets sell well, we will offer individual pieces for sale a few months later.

---

Thanks...the first post has been fixed. I forgot to include it. Never do work at home while your 2 year-old is wanting to play outside. It is very distracting.

We noticed. Gasp Gasp (I would have missed the lovely pool) :lol:

2-Year old? I would have thought Stefan was older? But, you did the right thing make him stay inside and keep working on the water sets.

and NO more TV til you've finished more sets.

He will understand when he's older. ;)

Me & Godfather need to "house" our minis in a proper setting. So we need 300 DF sets now..... ;)

Gawd when will this end..... :shock:

Just wondering if an official or estimated release date had been announced for the new upcoming fantasy floor set? How about the cavern river and lake set?

Zoro,

My Understanding is Oct-Nov For Floor Sets... And that there is No Date announced for River/Lakes... But that it COULD be Late Next Year?

---

Late next year? Ahhhhhhh!

I can wait.....

My players are just begging to go swim/drowning!!!!

Please hurry! :shock:

Thor,

It Seems it was About 2 Months Ago... You Heard there would Be No Immediate Release of River/Lake Set... Have Not Seen you Again until Now... You Sure You Don't Know Something you're not Tellin'...?.....

Thor!!!! Was begging to think you fell victim to one of your own traps! Welcome back:)

Yeah my budget can wait at least a few months at least.

---

Thanks for the info. Well, the fantasy floors are right around the corner, which is great. But since water stuff is not due out anytime soon, I'll go ahead and buy a "river set" from elsewhere to use as a temporary inferior substitute in the current DF cavern sets in the meantime. I'd still plan to buy the water stuff from DF when it eventually comes out though.

Zoro,

Me Too... And as Dante has Pointed Out Pegasus has Some Decent Above Ground Rivers... I Have not Seen them, But Dante Seems Happy Enough with the Company...

=====

---

The main problem with what other companies offer in terms of river sets is that the better ones seem to be in a scale which would make the rivers at least 10' accross. I hope that when DF makes the water sets they include tiles which permit putting in a stream that is only one tile wide (5' or less wide) as well as wider rivers or an underground lake.

---

Were I To Guess, (Which is ALL that it would be), I would Hazzard to Say that by Nature of Being "Modular" there will probably be 2 Inch "Banks" with Cavern Flooring along one or more edges and "Water" along the Other(s)... As well as maybe some Larger All Water Sections so that the "Rivers" or "Lakes" can be any Width that you have enough Sets to Make...?

---

So is the Fantasy Floor Set and the Fantasy Starter Set still due to be released in October? What is the release date? Can't wait to get my hands on the new stuff, especially the Fantasy Floor Set.
