Purchasing from the online store

Posted by SovS - 2004/04/17 13:53

Hi admin,

I've got a question I noticed that your shipping goes like this...

*Shipping: $4 for orders under $60, $8 for orders $60-$225, and free for orders over $225. Canadian customers add $10 to all orders.

Does that mean that S/H to Canada is $14 orders
And you guys take paypal right?

THanks! I wanted to get some individual pieces.

All orders shipped to Canada have a flat $10 fee added to the total because of the extra fee our shipper charges us. Sorry.

As far as paypal...I will look into it for commercial use...as I have a personal account with them. Right now...no paypal

_____

I think a company Paypal account would be a good idea. Because most people use paypal these days for purchases over the net since it keeps a record online and can be printed out etc and is secure.

Also gives access to paying online for those w/out a credit card.
