RotA & small Cave Posted by mcwulf - 2009/11/10 16:32 It's a small temple with an destroyed main entrance and a secret backstage entrance through a Cave. In the middle of the RotA temple is a pool of magic ice. The DoE Columns are sleeping Gargoyls. http://img.pulseone.at/gallery-692290c83f70.html RotA & small Cave Posted by DaggerdaleDM - 2009/11/10 18:22 Very nice setup. I love the small plant touches. RotA & small Cave Posted by Kradlo - 2009/11/11 02:28 The "magic ice" is way cool! :D RotA & small Cave Posted by AfterBusiness - 2009/11/11 08:27 How do you make the magic ice? echt cool...;-) RotA & small Cave Posted by Myrthe - 2009/11/11 14:48 Nicely done !!! I'll add my voice to the request "How do you make the ice?" It looks like the small acrylic "crystals" you can find in pet stores for fish tanks but I've never seen clear ones.
