Cavernous Rivers and Walls is probably DF's best-looking set so far, and it has awesome production values to boot.

The forums have been more than a bit grumbly of late, due to the shipping vexations (and I've had my share), so I wanted to reiterate how terrific this set is. It's worth the wait, and I'm eager to move into my new house in a couple of weeks so I can play with it more extensively.

And Cavernous Lakes in only a couple of weeks! Den of Evil last year, mystery set coming up, more this fall! This is a great time to be a Dwarven Forge customer.

I'm not a paragon of patience by any means, but it's easy to be patient when you can be confident that you'll get the payoff, and the payoff will be worth it. And DF delivers. Even if it's eventually ;)

I agree whole-heartedly !!!!
All shipping / communication frustrations and confusion aside ...

THIS SET IS ABSOLUTELY AMAZING !!!!

My wife, a non-gamer sadly (but the patience of a saint for one) even gave the set an awe-filled and enthusiastically genuine "THESE ARE BEAUTIFUL !!!!" To which I promptly asked if I could get more sets while the asking-timing was right ... Off to the online store again :)

This was well-worth the wait !!! Stefan, you certainly outdid yourself on this set ... the craftsmanship is wonderful !!! Awesome job !!! Okay, okay, that's enough basking in your glory ... now get back to work making more magic :)
