Portcullis from wicked additions

_____

Is there any possibility we will ever get the portcullis from WA 1 available for individual sale? I could sure use more of these and I'm not really interested in picking up anymore WA 1 sets.

I would love that myself!

I'd buy at least four, and probably more.

I'm thinking that we'd might get a set of # portcullises, or we might get a portcullis in a set with other doors, if we get it at all.

_____

An all door set would be pretty cool. Include doors from all the sets.

Hello all,

I think it will be a very good idea if Stefan can create an accessories doors set, with portcullis, iron door, fire door, water door, earth door, wind door, magical door, what else ???

I think if my memory is correct there was an individual portcullis door available many moons ago.

But yes, I would defenitely be interested in a door set.
Doors are one of those things at times you just don't have enough of. And its too pricy to keep buying room and passage sets etc to get them.

And some rare doors, with magic seals etc would be great. With skulls on, with greates. With locks etc.. lol

Oh and some curtains please. :)

Ohhh and.. ok I will stop there..

Seriously mind, some double doors, port cullis, normal doors, elemental doors, and some curtains/shrounds, tapestries to hang on walls would be briliant. And save me having to make my own. :)
