Curved Wall set
Posted by brvheart - 2004/05/27 22:35

There is a curved wall set up on Ebay now. Problem is it only includes 12 pieces: MM-008: Curved Walls and Passages Set. This set includes 4 curved passages, 8 curved corner room pieces, and 30 bowtie connectors.
Is this all that was in the set? Seems kind of sparce.

Now I am glad that I purchased an additional 16 curved walls instead.

I just added it up from the individual pieces and unless this was a cheaper set, I presume $60, it is cheaper to buy them individually: 4x$8 for the curved passages and 2x$12 for the curved walls plus $2 for 55 (not 30) bow ties is only $58.

I Never Baught that set and in fact never even saw it... I am Glad I Did Not Bother Now... Although a Part of me had Hped that they were Long Curved Walls Like 6" Wall Section but Curved..... It Would be Nice to Make Large Round Rooms... I Guess you Would need Some kind of Door Way Piece as Well...

_____

I see someone has placed a bid on it. I missed the Cavern set for $45 dang!
