WTS Original Den of Evil and more

Hi everyone,

Due to some unforseen financial difficulties, I am being forced to sell off my collection. I have the 1st Den of Evil set but one of the doorways is broken clean. After reading one of the threads here, it looks like superglue would be the idea fix as it is not shattered but broken off cleanly. I also have a Dungeon Accessories Set and Treasure and Magic Items Set.

Den of Evil
Dungeon Accessories Set
Treasure and Magic Items Set

I believe at least 2 of the 3 sets above are now out of production and discontinued. Would anyone be interested in the above at $120 shipped?

Thank you kindly!

Pardon me, but I just have to say that I consider it bad form to market a DF set on these boards that is currently available via the DF on-line store.

I understand your circumstance and maybe even wanting to give us die-hards a first crack, but a link to

e-bay or something like that might be more appropriate.

Just my 2 cents.

_____

It looks like there are 9 more DoE sets in stock in the DF store.

I was under the impression it had sold out long ago.

I sincerely appologize. I will lower the price and look elsewhere for it's sale.

Thank you.
