Please post your questions here. I had to really rush the newsletter, so I am sure there are good questions.

The first one: How do the free pre-order items work exactly? Are they accumulative?

A: Yes, the freebies are accumulative, so if you ordered 4 sets you would get TWO Straight Walls with Medallion and ONE Awesome Intersection. If you pre-order 6 sets? You get THREE Straight Walls with Medallion and TWO Awesome Intersections!

Thanks.

OK Jeff you beat me to my question.

I will ask however is this really the LAST limited edition set?

Cheers

Q: Are there a limited number of Awesome Intersections or are there really 500 of them available (assuming all 1500 sets got pre-ordered in multiples of 3)?

Q: Are there two different Awesome Intersection Mosaic patterns "available" (as revealed in the Small Tease from Gen Con Indy thread) or just the red/yellow sunburst pattern?

I think that was a typo or mis-written statement by Jeff...We are actually going to be doing MOSTLY Limited Edition Sets from now on...

There is only the one red/yellow sunburst pattern.
Perhaps we will offer the other one in another shipment for sale individually, but not sure at this moment. We may even offer several more types of patterns or furnishings in a future add on set. I can envision 2 more patters with some add on's like sarcophogasus, wells, fountains, etc...we shall see how this sells...

Well dang nabit!

On the good size note I might not have to sell all my DF stuff. In fact might be able to continue collecting it.

This set helped me decide to struggle through it with out selling if possible all the DF stuff I have.

Nope. Just order 3 sets and you get both pieces.

Order FOUR sets and get TWO Straight Walls with Medallion and ONE Intersection

Order SIX sets and get TWO Straight Walls with Medallion and TWO Intersections

Man, I've been trying to load this page all day! WOW!

Well, I have to say, there's one really strong incentive for me to get three sets -- I want to paint up the ORIGINAL design on at least one of 'em!

I'll gladly take the extras, of course, and that "sunburst" intersection is a real prize! But I'm also going to try to spruce up one of my "extra" sets. I doubt I'll do as much as what was originally shown -- but certainly two of the intersections and some set of floor pieces are going to get a touch up. When I have a chance, that is...!

Cannot WAIT to grab this set. This looks like DF has once again set a new standard. Each set to me feels like it's just never going to be topped.. and somehow the next always sets the bar higher!

Didn't you say in an earlier post that six sets would yield THREE straight walls with medallions and TWO interrsections?

Sorry just clarifying :)

I agree, there seems to be some confusion on freebies when pre-ordering 6 sets. The original post on this thread is quoted below:

Later on down the page admin says if you pre-order 6 sets you get 2 Straight Walls with Medallion

instead of three...

Order SIX sets and get TWO Straight Walls with Medallion and TWO Intersections.

On the website where we pre-order

http://www.dwarvenforge.com/store/product.php?productid=16409&cat=0&page=1

it says that six sets gets you THREE walls and TWO intersections.

Since that is the commercial site, I think we can take that as canon.

This is correct. Sorry for the confusion everyone. Bad timing with the holidays!

Sorry if i am still a bit slow from Thanksgiving, but i am not 100% clear on somethings.

Do we have to order today to get the extras, or can it be anytime during the pre-order period?
The Pre-order page says
Pre-Order before Feb. 1st to receive $10 off the price -- and order more than one set and get some cool limited-edition freebies, too!
Which makes it seem like you can order up untill, the end of Jan, to get both the extra's and the $10 off. Is that the case? Somwthing i had read elsewhere made me think it was a Monday Dec 1st specific thing, but i cant' seem to find it now, so just checking, as a i get my money situated, (Jan i can do three, this month, maybe 1).

Yes, don't worry, you have until Feb 1st, and you still get the discount and the freebies (while they last)....right Jeff? How many freebies are there Jeff? I think we should make it clear to everyone how many there are before they run out...not likely to happen for a while i think...

Ok, thanks for the info, i really just need to wait untill after the 22-23nd of this month, as i will have "extra" cash at the end of the mont.
everything untill about the 23 is spoken for. I am honestly more interested in saving the $10 than the free stuff. While i'd like it, its not a needed thing, saving $10-30 is more important to me than getting the extra's, if they are still around, cool, if not it's not like i will kill myself or anything.

I ordered enough FREEBIES so that ANYONE who places a MULTI-SET order before Feb. 2nd will get their freebies. The only danger in NOT getting any of the freebies is if the sets all sell out by Feb. 2nd. We will send out a warning newsletter when we are getting close. My guess is that it is going to be

close.

Stefan,

I would like to wait until Jan. for my 6 sets but would also not want to miss out on the free goodies. (The reason for 6 in the first place) Also just to clearify is AB2 also pre-ordering or have I missed that one?

Just want to confirm -- ROTA ships in February, right? That's what it seems to say on the website and the newsletter. But people are making a real good case that we shouldn't expect these before April. Which is it?

PLEASE PLEASE PLEASE say Feb! That's only a little over a month!
