Hello everyone,

New on the boards here. I am a huge fan of DF and have a massive collection. I am very excited to see the upcoming release. I actually voted for this a long time ago and it looks like they listen to their customers which is great. Looking forward to the release!

Thanks again.

Welcome aboard, HLDee!

Yeah, Jeff and Stefan DO listen to us; they both are gamers themselves, and they also have learned something that a LOT of other manufacturer's could stand to heed;

"Customers can make or break a company!"

You have to generate a majority of people to get something added to the line (no sense in Stefan designing something for one or two gamers!), because if DF doesn't make a profit, DF disappears. But, if enough of us convince Jeff and Stefan that we want something, they WILL do it, unless someone else is already doing a comparable product at a reasonable price. Stefan seems to specialize in the goodies that no one else has guts enough to tackle; I'VE always thought it was because he was so disgruntled with the foam-core scenery he was seeing in NYC in the late 80's-early '90's. According to the corporate history, that's what inspired him to start doing DF.

See ya!

Jim
