_____

I made a video today of a cool set-up using THREE Realm of the Ancient Sets. Enjoy!

Have to agree with you there Chick. I'm kind of an ogre when it comes to bouncing minis and dice off my current DF stuff...and they aren't even limited releases! :)

BTW have always mean't to ask, what is polystone? Is it a resin? Or a resin reinforced stone? Have always been curious as to what our DF goodies are made from.

I would especially object if anyone tried rolling my brushed stainless steel d20 inside my Master Maze!

That's why I have my Chessex dice corral, or "green rolly thing" as I call it.

:D

Yeah, I am all about the Die-rolling box...er...Green rolling thingy too...

Great video DF! And no description of the "Medallion" wall could do justice to getting to see it in action. Very nice...

maj!
