_____

Well, it seems like we really are getting close to the end for the original DOE R&P set. The counter at the on-line store says 17 sets left, and Jeff seems to be saying that these are the very last of them and NO MORE will ever be made.

So, I'm going to count down as they go.....

I'm just dying to pick up one more of these sets, but without the promise of 6" hallways coming in the new set I just can't justify MORE L, 4-way and T intersection pieces.....

Having unboxed my sets, I completely agree on the T and 4-way Intersections...I still found plenty of uses for the L shaped ones.
