Product release scheduling announcement!

Posted by admin - 2009/03/19 20:25

We finally have a clearer picture of what the next six months looks like for Dwarven Forge product releases. We have had some issues with respect to quality control and production that have fouled things up a bit.

Here is the 98.9% sure calendar for the rest of the year. This is going to be an amazingly fun year!

April 15th: Pre-Orders start for the Realm of the Ancients 2 Set and it will close on June 2nd. There are more details to come, but we will be offering a free Ruined Entrance piece with every 3 "RotA 2 Sets" you pre-order. The sets should ship out on July 1st. Many re-stocks are also arriving with this order. See post on homepage.

July 1st: Advanced Builder 2 Set will be released for immediate sale and shipment.

Fall of 2009: The next installment in the Den of Evil series will be released. Ever wonder where the EVIL came from? Now your players can venture into this otherworldly environment!

End of 2009 : A brand new terrain idea from Stefan's Dwarven Forge! This is going to rock...if we can pull it off. Keep your fingers crossed!

_____

April 15th: Pre-Orders start for the Realm of the Ancients 2 Set... The sets should ship out on July 1st.
July 1st: Advanced Builder 2 Set will be released for immediate sale and shipment.
Will we be able to preorder ABS2 at the same time as RoA2?
I am sure RoA2 will be cool, but ABS2 is the one I am waiting for. I can't wait until we have a preview of both these.

Fall of 2009: The next installment in the Den of Evil series will be released. Ever wonder where the EVIL came from? Now your players can venture into this otherworldly environment!

The source of evil!!

Can't wait to see what this set looks like.

On a separate note.....this is starting to look like a very very expensive end to 2009!! :D

And the terrain idea really piques the interest!

_____

My fingers are crossed for rocky outdoor terrain tiles...

_____

Hope the new DOE has a 6" straight corridor!
This too please! It seems like all the evil dungeon complexes in the adventures I use have long corridors aplenty.

This too please! It seems like all the evil dungeon complexes in the adventures I use have long corridors aplenty.
Agreed. We really could've used the 6" corridor the other day.

_____

6" corridors are needed badly for DOE along with some ABS style of pieces. Would love to have DOE windows as well.

As for the new terrain idea... It would be cool to have 1 foot x 1 foot squares with magnets imbedded and walls with magnets on the bottom that can stand up. This would allow for some quick builds for dungeons.

_____

This all sounds really great!

I'm now really looking forward to the RoTA 2 set, as stairs will make RotA much easier to use in Dungeonaday.com. In fact, I'll be trying to create a whole special section devoted to RoTA!

All good and exciting news. Can't wait to see the source of evil set. I hope it looks either infernal or alien/Far Realms. And I am keeping my fingers crossed that the new terrain at the end of 2009 turns out to be ice or lava.
