_____

There has been another complication. I am sorry for the continued delays.

And yes...this is driving us nuts, too!

_____

Thanks for the update. Even though there seems to be issues, its very refreshing when a company is upfront with its customers like this. Unlike other companies. **cough cough** WOTC with the DDi tools **cough cough**

We should have the info out later today. Thanks for your patience.

(Issue seems to have been resolved)

Origins occurs from June 24-28 this year (2 days before July 1). Is there any chance that you will have any ABS2 on hand at that time to purchase? Those of us going would probably be willing to prepay. See you there.

WillOH

Sorry, but to keep expenses down we won't be taking any stock with us. We will just have display sets there. You can certainly order them there at Origins, and they should ship out July 1st.

WillOH
We could sell the display sets on Sunday....or maybe Jeff wants to "store" those at his house.....?

Ahhh but at GENCON! :O)

Although I think it is cheaper to pay the shipping from online store than the "tax" at Indy.
