Question for Sean and the playtesters. What terrain are you guys using? Is that Dwarven Forge?

It is. We've got a LOT of that stuff sitting around the conference room. It's pretty handy stuff!
Well here is another industry leader using DF items for their games. Awsome!!!

I am looking forward to the new rule set. Pathfinder RPG!

Any one else seen it or looking at it?

I have tried 4.0e and while it is fun it seems like something is missing. So I am hoping this "3.75" version of DnD well do the trick. From reading the beta rule set and the fact that they took feedback from players on the Alpha rule set it seems like it has a lot of potential. Basically 50,000 playtesters! Yea I hope they were able to mesh everyones opinion together for a great rule set. Like I said the Beta looked good. Which by the way can be downloaded at their site for free.

Sean

PS I am not the Sean they were referring to.

NM,

I have a number of their Paizo's stand-alone gaming aids/accessories and they're EXCELLENT.

As for RPGs I already use (Troll Lord's) C&C and it is the perfect system for my style of game.
