# Update to Tile System with Hellscape and ROTA pieces!!!!!!!!!!!!!!!!

Posted by dndgamer - 2009/10/16 21:14

---

Just curious if anyone has time to update Tile System software with Hellscape and ROTA.  If not, I would gladly to do it if someone posted instructions on how to do it.

---

you forgot :

-advanced builder set 2
-rota set 1
-rota set 2
-and we also wait for the rota entrance to add it too ....

Numerous places in this thread:

http://www.dwarvenforge.com/dwarvenforums/viewtopic.php?id=1912

Can't say exactly where the latest version is, but hunt around and I'm sure you'll find it - its truly an awesome resource!

Posted by HeroQuestFrance - 2009/10/30 05:11

_____

Sorry looks like no one did the following sets :

chasm set
rota set 1
rota set 2
rota entrance set
hellscape set
advanced builder set 2

Can we may expect the help of DF on this ?
For this mapping program or others.

_____

Not sure what program version you downloaded, but the last one I got definitely had the chasm pieces already done as photos.

_____

Chasm and rota1 are also done as drawings.

http://www.colinburns.com/games/mastermaze/TileSystem304_Mastermaze.zip

I've got the rota2, entrance and abs2 sets sitting in my living room and hellscape will arrive on Monday. I just need to pull out my scanner for the odd shaped pieces, fire up Illustrator and some indeterminate amount of time later, it'll all be there.

_____

OK, I've added the Advanced Builder 2 set...

http://www.colinburns.com/games/mastermaze/index.html

I'll be working on RoTA2 next.

Sorry for the large download, I did not feel like separating it all out.

Posted by pfworks - 2009/12/01 15:17

_____

I learned how to use a new Illustrator feature... Cropping Paths. Wish I had known how to do that earlier!

thx
