Thanks to Tom from France, my DF collection is nearly completed :

Need now one ROTA secret passage piece and one ROTA colored hall now and it's ok. But DF doesn't sell it (too bad it were the best pieces of those sets without it the rota serial 1 & 2 look grey too grey and have few interest with a secret door the rotative wall one is too big) so it will be hard to pay 50€ for one piece and may be more on ebay so I give up the fight in advance.
