my opinion about Hellscape

Well my order arrived and here is my initial opinion.

What I was hoping for was a big miniature gaming area. to that end I ordered 3 sets with 7 extra floor tiles and 2 additional wall pieces. I got everything out and started to play around with it trying different configurations and to see what the maximum size of display would be using everything if possible.

Sorry no pictures at this time.

I was able to make a rather nice display just under 2' by 3' which is a good start for what I wanted. I'm not going to discuss the pieces much just wanted to say the pieces I got matched the pictures on this website exactly. they are gorgeous although the tile pieces can be a bit repetitive.

I was a little apprehensive about the variety of pieces in the box set. but playing around with the pieces I was able to achieve a good mix of layouts. With the above list of pieces I was able to make a massive open cavern or nice winding cave complex. my only complaint is because of the number of tile pieces, I got a very noticeable repetitive pattern. I believe I read in another thread there may be additional sets in the Hell scape series and if that's the case the repetitiveness probably won't be an issue.

All in all it's a very nice set. I'm happy I got it and look forward to using it in the near future.
