Does anyone have an extra 4 way cavernous passage intersection?

_____

Sorry if this is bad form for asking, but I have loads of cavernous passages
that I bought as singles a long time ago. I recently picked up some more
and now I really need a 4 way intersection. I can't justify buying the
whole set for one piece as I now have more than enough passages.
If anyone has an extra one they would be willing to part with, I would really appreciate it.

I would be willing to purchase it or trade some other gaming goodness for it.

What other spare gaming goodness do you have for trade ?

I have a couple of DDM Treants from Giants of Legend that are new in the bag.
I have multiples of the walls II set, gatehouse and keep from the mageknight
castle line that are new in the box, never opened. I'll dig through my closet when
I get home as I'm sure I have more DnD minis to trade. Is there anything special
you are looking for ?

D&D Minies sound cool.
Please state which spares do you have.

Btw where are you located ?
We should consider P&P (maybe it more interesting for you to grab two 4-way passages, i could spare a second one)

_____

I just received my two passages today, safe and sound and in perfect shape.
Thank you again for the good trade. I know it was a leap of faith for
both of us and I'm just glad there are still people in the world that
know what the word integrity means. Thanks again.
