New Classic Master Maze Set Coming in August!

Posted by admin - 2010/04/26 09:24

Here is a teaser for the new "Ruins Set" coming in August. More photos and info tomorrow. Note that the wall inserts can be used to create whole walls or "ruined" walls can be made be removing them (and maybe them used as rubble). The price will be $89/set and there will be a COOL freebie if you buy 3 sets.

The photo here shows all the pieces in the set used in a set-up. These can be melded into existing "non-ruined" Master Maze pieces to create various levels of ruin.

LOVE IT!

Simple and useful!!!

Question about the whole wall/ruined wall thing: Does that mean the ruined *half-walls* stack on top of eachother to make a *whole wall* or am I missing something? Are all the wall peices free standing, or are they all connnected to floors?

Awesome- Can't wait until August! Can we get a hint on what the bonus piece is? Or did we get one already when you mentioned it was a "COOL" freebie?

Brilliant! I love the removable floor sections with the hole - that's increases the versatility tremendously.

Love the looks of this new set!

:D

WOW, look so good I had to post.I can see the pieces in this set getting alot of use.I allmost feel sorry for my players. Many will meet thier gods within these ruins.
I really like the removable floor parts , I can see future pieces with pit traps,acid pools,spikes,ETC ETC in future sets to come.

GAME ON.....

Great job.

This set picture is so awesome I had to be drawn out of lurking to post. Being an owner of a couple Classic Dungeons sets I wondered what this might look like, and I am blown away. Buying three of this would be a must even without the freebie piece (which I am still super excited about). I cannot wait until August.

i would say

4 wall curve
8 wall straight
2 corners
2 2x2 with trap
10 pieces of border

Wow, glad you like it guys...as Jeff said, it will be very useful for gaming scenarios...I see it mostly as an above ground ruined environment, and heck, isn't that where so many adventures happen?

Some of the walls come apart, so that the top halves are removable...so that you can simulate them being bashed apart or knocked down...or you can use these pieces as free standing half walls...places to hide behind...

I personally, want to create an old city that needs to be explored...with dungeons underneath:)

MMMMwwwhhaaaaa!!! MMMwwhhaaaaaa!!!!!

he,he,he....

Okay now if that isn't one of the coolest things I have ever heard, I don't know what is. Unbelievable!

Anyone else think the bonus for ordering 3 sets will be a couple of those ladders in the pic?

_____

i do not think it will be the ladder. it will be included in the set. i hope the special piece will be another floor or a damaged pillar.

I haven't bought any DF for a while now but I think I will certainly be buying 3 sets of these! The sheer versatility of the sets and the fact that they will complement what we already have should make them uber useful!

_____

When DF calls this an "expansion", do they mean that this is a "permanent" addition to the Fantasy MasterMaze line, or do they mean that this is a limited run special like DoE and RotA?
