Link for new Dwarven Forge video at Origins 2010
Posted by admin - 2010/06/24 08:34

Here is our new booth design premiering at Origins. We decided to go with a more "dwarven" feel.

Check out the setup with 3 Ruins Set, 1 Room Set and 1 Room and Passage Set.

Oh very pretty, this is tempting me to get fantasy...

I know the video was mostly the new bits... but i didn't see any scifi when longer shots where viewable... no sci-fi?

I have to say, awesome -- the video makes the ruin set look even better than the previously released pics did.

I am really looking forward to it -- I'd been thinking I'd only get one, but it does seem like more than one would be really, really, really kewl....

Awesome booth! Love the look of the ruins set sprawled out on the black felt!

_____

Okay, that is just TOO cool! I would love to see you guys at a convention one day. :] The Ruins set was already a must have (in multiples), but if it was possible for that thought to be reaffirmed any further, this video did it. Also...picking up some black cloth has become a great idea!
