_____

whats a good price for a complete in the box Dwarven Forge Master Maze Advanced Builder Set and Dwarven Forge Master Maze Deluxe Room Set (missing one door piece)? Also a Dwarven Forge Master Maze 15 Short Cavern Passages and the Dwarven Forge Master Maze Wicked Additions Set. Dwarven Forge isn't selling these items, so I'm unsure of a good price?

There were some recent ebay auctions for those. So bearing in mind we are talking auction pricing.....
AB set goes for $90 to $150
Deluxe Rooms usually for around $100
Short Cavern passages I have only seen once and it was around $170, this was recently
Wicked Additions usually goes from $85 to $125

Good luck on the short cavern passages, I would love to have that set but am hoarding my money waiting for the restock.

I don't think it was an official set but someone had a set of nine short cavernous passages up for auction recently. I assume they were purchased individually becase it would take several cavernous passages sets to get nine of them. And why would anyone break up several sets? Anyway, I dropped out of bidding after it went over $150.
