US login should work on European site

Posted by Thod - 2011/12/26 15:40

The web company has preserved the login information. If you are a European customer, then you should be able to use the same login on the European site. I know that I like to preserve my 'Thod' login whenever possible.

I just tested out my Thod login and was able to log in.

I'm in the process to clean out all American users to avoid any future e-mails (like the ones to Jericho). This is a manual process and I might get it wrong occasionally. So if your account information is gone, then please re-register.

Username and password do not match or you do not have an account yet.

I tried this morning tochange my Df.com password then to log on the DF.eu
Still not possible to me.
I tried on the latest interet explorer version and firefox.
The problem remains the same.

HeroQuest

The US site and the European site are independent.

You need to change your password on the European site. If you change it on only one than you have different passwords on both sites. If it doesn't work, then I will try to reset it for you and send it to you.

This will be European one.

Thod
