Woodland Set & Woodland Accessory Set

Here is a short video and some pictures of the Woodland Set & Woodland Accessory Set. The miniatures are mainly Reaper, but i must say the colossal sized feline in the last picture is definitely not.

Nice. Sweet paint jobs on the minis. Did you do those?

Thanks for the kind words.

No, unfortunately, I didn't paint them. I bought them painted on Ebay. My painting skills are basically nonexistent.

Radien,
Nice setup. I particularly like the use of model trees, they go very nicely with the Woodlands set. At the moment the only DF I have is two sets of Woodlands, so the types of dungeons I can make is a bit limited. You've inspired me to pick up some model trees (and maybe other model terrain as well) to see what diversity I can get out of my Woodlands setups.

Thanks. I think I got those trees at a train store. You can also pick up a lot of items that go with any set at hobby or craft stores.
