I foresee a TPK. "We all died horribly... but we'll remember her boobs forever!"

This can't be for real, especially the high number of responses on the updated Craigslist post. I run an association of gamers (200 members) and can count on (*counting on my fingers*) two hands the number of female GMs. He had a high number of responses of women willing to come over to a strange man's house full of men?

It is funny how he put "guys" in quotes. Also, he is looking for a topless DM and yet he will not accept nude photoraphs of prospective DMs (what a gentleman), and he prefers "cup size be at least C or greater" so apparently there is no upper bound.

I have my suspicions about this as well. It is just too funny.

_____

This sounds like "Bachelor Party" (starring Tom Hanks) meets "Fanboys." Which actually sounds like a really funny movie...

_____

Amusing, if rather..... inappropriate?

(and probably not true!)
