Questions for D-Forge
Posted by Thor - 2004/04/07 11:42

Two easy questions

1) Are the items listed as out of stock (6x6 tile, long walls etc) going to be available at some point? Are they still in production? or discontinued?

2) Will we ever see the cave-in end-cap piece from Wik-Ed II available as a single piece? I love this one! I would like more!

Thanks

2) Will we ever see the cave-in end-cap piece from Wik-Ed II available as a single piece? I love this one! I would like more!

Thanks

1) The 6x6 will be available in May, but some of the small stuff will not be re-stocked -- as well as the Narrow Passage Set. Everything has not been decided yet.

2) Sorry...no plans for that. There are some production issues that make that nearly impossible. Sorry.

Please keep us posted as to what is being discontinued. I'm sure many of us would buy it up.

About the cave in piece, I understand why, It is a nice piece.

_____

Err? You want to modify existing? or make some new ones? I would not want to mess with my two sole examples. Are you any good yet with that green stuff.... :rolleyes: So far I've only seen a "rock" made..... :lol:

Peaches wants to game this weekend are you in contact with him???

_____

If You Were Willing to "Mess" around with Modifying Existing Pieces, May I Suggest A Short Corridor Piece instead of an End Cap? Pros And Cons Listed Below...

End Caps:

Pros,
1) Realitive inexpense... ($12.00 for 4).
2) Small Quantity..... (Box of Four right)?

Cons,
1) They Are Short..... (Not Much Depth to Work With).

Short Corridor Pieces:

Pros,
1) Larger Quantity..... (Comes with 14 Corridors and 1 Existing Cave in).
2) Larger Quantity..... (Trash One Experimenting...? Oh Well...).
3) Cave in comes/Set... (Ok... I'm Reaching).

Cons,
1) Expense..... (At $60.00, they are about Four Bucks a piece).
2) Larger Quantity..... (Who Wants that Many Extra Short Corridors)?

I Don't Know Seems Like the Big One is that End Caps are Shallow...

_____

I like the pros & cons! Do red-heads next!!! :lol:

Good idea though use one of those short corridor sections (I have like 18) and block it off.....or just build up some nice rubble.....

or do the real narrow trick.....

_____

Not Sure I am Willing to put my Less than Delicate Posterior on the Line for the Limited Usefulness of a Redhead Pro's and Con's List... Sorry Thor.....

But Yes There Seems to be a lot of Potential for Altering/ Modifying The Short Corridors...

_____

Limited "usefulness" of a Red-Head Pros and Cons.....??????

Ahhhh ------ Pfff --- snort --- What could possably be MORE useful !!!! ahhhh... ack....gasp.....

(Chair falling over and then only silence.....) ;)

_____

Yup, Just remember don't get any on you. :D

Do not buy anything from Mr. lord void!!!!! That watch he sold me had Mayor McChease on the back!!! :o

MrMorden is here but he usually talks about spiders and new ways to modify MY Dwar-Forge pieces with this green goo stuff he uses.... :shock:

Friendly French Tom wants pictures of your set. All types, All kinds, and He wants them NOW!!! ;) :D

The moderator/admin shows up sometimes and we all suggest new pieces (100's) he smiles and says "in development" and goes away. :D

There are other characters but you must encounter them on your own young jedi..... ;)

_____

Pictures of YOUR Dwarven Forge (DF) pieces in use. He (WE) likes to see all the cool lay-outs that

people are using. You know a Dwarven mine, a Castle, A cool cave complex. what ever. (Several pictures of spiders for some reason) :?

There are a lot of posted pictures on this site. (We posted one of a Drow Guard Tower (Two Story!) somwhere here) 8)
