Howdy. New to the site, but everything is very intriguing thus far. I'll definitely be picking up some sets before long.

Do a lot of you also collect Miniatures as well? I might be interested in that. Let me know how it goes and I'll check back here.

Well, off to figure out which sets to buy first...wish me luck!

Hummmm,

Retail prices for DF can be found with absolute certinty, but waht about D&D minis, are we to use the priceing guide

http://www.maxminis.com/forums/topic.asp?TOPIC_ID=5040

or just make somthing up?

If that's the case....I've got two Red Pillars for a D-Beast.

Actually,

There's someone on this site with like 31 sets making my meager 13, well, meager. Now if WOTC had not put out those damn minis (Count is at just over 1500 pieces of PlatiCrack.(1510)) I'm sure I'd have a lot more. But we need something to put in the Forge once and a while.

:(Well at first they had the sets about every 2.5 months or so. Now they are spreading them out over about 4 or so months. Mixed blessing to be sure. We have some time to fill in holes " Collectors that is " before the next set comes out and time for the LOOONNG Ocational, HINT HINT, New DF products. Hey any one interested in trading Mage Night Dungeons stuff for D&D mini's or DF stuff? I got a few rares..... :idea:

I have a bunch of stuff like the grendel and fatasy seanes? plus a few more manufacturers. I just need to paint some of it. I also want to make it the same theme " color " as the DF stuff. Yes the artifac MKD is great. they kinda stoped puting that line out. Kinda a bummer. :cry:

I Almost, (That is to say Not Sure), Hope that WotC will have the Sense to Release some Painred Plastic Accessory Sets to Support their Minis... If the Stuff was at least that Quality I would be Satisfied... What Kind of Gredel you Trying to Get rid of? (Or Did I Miss-read)?

Hi, I must have mistyped. Not triing to get rid of that, just making conversation. I really want to get off the computer and sofa and paint it. LOL..... I find somehow that painting things like furniture or terrain are easier than people or even monsters. :)

Kewl Thing about Terrain/ Vehicles Etc... Is that Scale and Function can be so much a Matter of the Extra Details... So Building a Scratch Built Bunker for Instance, or Some Dark Future War Machine is relatively easy... Building an Orc from Scratch? Forget it...

O.K. This may get me in trouble with Jeff, but...If anyone has any really finely painted characters or dungeon dressing stuff I might be interested...but I want to say right now that I have about 500+ painted mini's already so I am really looking for something special or really, really well painted. I need more mages and elves and monsters of all types (never can have enough of those eh?)

I used to paint figs like a maniac (I'm a painter after all) but then I started DF and now I have no more time to paint or all you guys will kill me...working on the Lakes now...

Stefan.

PS

I've said this before, even if nobody believes me, I don't make that much money from DF (and now I have a Wife... so now I also have that problem every other gamer has--what? more money on mini's?) So trades are good!

Stefan,

I Would Love to See Some Pictures of Your Painted Minis? I Can Imagine that they are Pretty Darn Kewl...

And Why Would Jeff Get in a Snit about you Wanting to Trade? Are You Not allowed to Show Your D&D/Player/Geek side to the World for Fear of Plummeting DF Sales Because Your Demi-human

Mystique may be Shattered?..... No Worries there, I Think it is Safe to Say that You Have Secured Your Place Firmly in Gaming History with Your Creation of DF... So Trade Away!

Has Anybody Checked to See if Stefan is in "Who's Who" yet?... If Not He Certainly Ought to be.....
