

A few random cavern shots

Minor tweaks to the layout -- a few shifts in the river, a few shifts in the chambers. And some new residents -- I like the water elemental confrontation, and of course the "eye beast" ... (sigh)

Oh, and two of these pictures are not actually of cavern-dwelling aberrations against nature, but in fact show cutie pie little goslings I saw running around in a park this fine spring afternoon. But I won't tell you WHICH two pictures. You'll have to guess.

So, can I assume that the first two pictures on the tops are the "aberrations against nature"? :)

where then are the cutie pie goslings?

Quack, Quack...love the layout, the Water Elemental and...the ducks!

Thanks for sharing L!
