Great sale and help out a fine miniature maker Posted by Deeman - 2008/09/12 10:53

.....

If you haven't seen this on other boards Heresy miniatures had a casting machine break down and as they are a small company, this is placing a large burden on them. The owner is running a 20% off sale and free shipping anywhere for order 25(where is the British pound symbol on my keyboard?) or over to raise money. They make some excellent and unique models, so might be worth your time to check it out and possibly help someone out of a jam.
