What happens if ordering a mix of sci-fi and non-sci-fi.

There is only one coupon code space, can you use both on the same order?

Making two orders would loose any benefit on extra postage. I don't want to test because I know often these codes are one use only so I want to have the right combination in my cart before ordering.

Ooops I messed up, ordered right after midnight since there was only 1 Medieval Bulding Set left and didn't want to miss. I assumed the 10% came of automatically. Oh, well, it can go towards funding more new sets!

I had the same question, in the end, I think since I have loads of the Sci-Fi Room sets, and I was just picking up one extra one, to show support of the Sci-Fi line... I will just take it out, save the \$45 or so and just go with the ones I don't have at all, plan of grabbing Doe:Hellscape, and the RotA Ruined Entrance bit.

This way I can get the new one and see if I like it enough to get more later.

Just wanted to say Thank You. We appreciate the opportunity to save money, especially when buying something that makes us happy to begin with!

John
