A new/old Collector

Posted by patoumonde - 2010/03/29 19:38

Hello there,

I didn't know where to put this post and frankly, it's not a very important post but i was so happy with the finished product that i had to share. The thing is, i've been trying to gather up a Dwarven Forge Collection for the past 2 months now and as of tonight, my quest is done. So i thought to share what i was able to find all over the place. I know it's pretty selfserving but i think it's character trait of us collectors and gamers. We like to share what we have. Their is some kind of pride in it i guess.

So here it is, my collection of DF sets.

MM001: Room Set = 2

MM002: Room and passage set = 1

MM003: Octogonal set = 1

MM004: 25 diagonal walls set = 1

MM005: Curved walls and passages = 1

MM006: Wicked additions set = 2

MM007: Ogre's Den = 1

MM009: Deluxe room set = 1

MM010: 15 short passages = 1

MM012: Wicked additions 2 set = 1

MM013: Medieval furniture set = 1

MM014: Narrow passage set = 2

MM015: Cavern Set = 3

MM017: Advanced builder set = 1

MM018: Trap set = 1

MM019: Trap set 2 = 1

MM020: Cavernous passage set = 1

MM021: Fantasy floor set = 2

MM022: Fantasy starter set = 1

MM023: DoE Room and passage set = 3

MM024: Cavernous river and walls set = 2

MM025: Cavernous lake set = 2

MM025-CLW: Open water set = 1

MM026: Medieval building set = 3

MM027: DoE Wicked additions set = 2

MM028: Medieval building expansion set = 2

MM029: Tavern accessory set = 2

MM030: DoE room set = 1

MM031: Cavernous lake expansion set = 1

MM032: Cavernous chasm set = 1

MM033: Advanced builder set 2 = 1

MM034: Realm of the ancients set = 1

MM035: Realm of the ancients 2 set = 1

MM035RE: Realm of the ancients ruined entrance = 1

MM036: DoE Hellscape set = 1

There are a couple more sets i'd like to have 2 of like the RofA sets but all in all, i very happy with what i have. I can't wait to posts some builds i am in the process of making. I'm still in the making stage

because i combine most of those with some WorldWorksGames cardstock builds for streets and sewers

and what not. It's making these that takes most of my free time :)
I don't know if anyone read til here but if you are you must be an avid collector like i am :)
Thanks and good building.
Pat

Hi Pat,
Just so you knowI read your entire post!!! :D:

Very nice collection! Congrats! Great that you got some of the very useful out of print sets!!!
I know the feeling - I often inventory and rearrange my collection, and ten read my inventory. Lately, I've been moving the collection into Sterlite 7 drawer units that people on the boards recommended.
I agree that having another of each RoTA sets would be great as would having a few more of the Classic Dungeon sets to make building large set-ups easier (maybe another room and passage set if you plan to build a fantasy set-up with numerous passages. As well, the extra corners in that set will be very useful, and perhaps another Advanced Builder set for the 3" straight hallways and maybe another wicked edition 2 set for the 3" straight walls and the large floor tiles.)
Happy building, welcome to the addiction and be sure to post some pics!

For the life of me, I have no idea what MM005 is.

All jokes aside thats a nice collection. Congrats.

Thanks and you are quite right.
The quest was to build the foundation:) Now the second quest begins filling in the details and anxiously waiting for new stuff!:) Pat

I think that you may have mislabeled the "Curved Walls and Passages Set" number. I believe that it is MM008, not MM005. I know mine is labeled MM008.

Nice list Pat. A serious investment in your game playing terrain!
Just a couple corrections though::
Sorn is right Pat: Curved Walls and Passages was MM008.
Wicked additions 2 is MM011, not 012. MM012 is the old Dungeon Accessories set.

I even went back and looked in our 1999 Product Information packet from Dwarven Forge, and 005 is already discontinued.

Stefan, HELP!

I know I am going to pop myself and go, "Oh duhhh!" when you tell us.

I just cannot remember what MM005 was.

BTW, MM016 is the Treasure and Magic Item set according to the 2003 Dwarven Forge Product List. That was needed to make Pat's list a complete list of Dwarven Forge sets minus MM005 with the above corrections.

The individual piece list would be much longer; in 2003 it took more than 3 pages printed 8.5x11 when printed off the Dwarven Forge site.
