Just checking, but will the boat/raft accessory be available with the lake set upon its re-stock in August? Fingers crossed...

Would love to see that, as I didn't get one either, but it was a special pre-order thing and has never been available since.

yeah I love the look of that set, and it's such a shame that my player's characters don't have great swimming ability... If the boat/raft is unavailable from DF, does anyone know of any other boat miniatures available from other companies...?

I didn't get it too when I ordered the 4 river & lake sets a year later. I had one thanks to other fans who sold me it. I also would like to see those special pieces to be in sales again... (rota colored entrance & secured door, boat of lake set & so on)

Ebobminiatures has a good looking canoe. Arcane Miniatures has a (flying) "pirate boat".

Steve Barber has a raft in one of their "prehistoric" lines.

Sorry, that's all I have time for right now.

Does anyone have pics of all of the bonus pieces there have been? I'd like to see all of them.

That's a great idea....I think I can at least provide a list:

If I remember correctly:

Lizard Men Ambushers (with River & Walls set)

Door Raft (with Lake set)

Shutters (with MBS set)

Colorful 4-way mosaic hallway (with RoTA set)

Special medallion secret door piece(with RoTA 2 set)

Ruined Entrance (with RoTA 2 set - this one is sold separately - first and only to do so)

Lava Fountain (Hellscape set....this was suppose to go on sale as a separate piece, as well though I don't think it ever has)

Monster nest (with Ruins set)

For some reason i feel like I am forgetting something....

If you don't mind painting www.megaminis.com has a tin boat that you could paint and use. You have to buy through their ebay store and they only cast to order so it may take a while to get it. I was thinking of picking up some of their Dungeon Decor pieces because they look pretty good. If I do buy some I will let you know how they fit with the Dwarven Forge items.

This might be a little late but I recently bought and painted this little reed boat and it turned out quite nice. He shipped it very fast and the price is reasonable.

I saw this on eBay, not sure what to make of it. Might be worth checking out.
