Egyptian Accessories Set - Order Shipment Status Posted by bendbuddy - 2012/06/29 00:15 Hello, Just checking in on the order status of the Egyptian Accessories set I placed on 6/9. My order number is 2198. The site/email announcement hinted at that shipping relatively soon after ordering. Thanks in advance for any update. Aw, thanks, man. Much appreciated. The terrain community has been so great to our game group that it always feels good to share and give back.

Imagine my glee when we saw this new Egyptian accessories set. It goes perfect with our new terrain

series (Project Red Rover, Red Rover).

Any Dwarven Forge customer service assistance on my order status would be much appreciated though:)

Sorry for the delay, I am sure Jeff can check for you on Monday...it usually takes a few days longer when an item is newly released because of a backlog of orders, however, your order should have been recieved by now, so there must be some sort of issue or problem....he can check with the warehouse on Monday.

Thanks for your order, I think you will be very happy:) Remember, you can always call us during office hours as well at (618)549-7100
