Ancient treasure set Posted by HeroQuestFrance - 2012/08/01 09:08
I just got the package (due to my personal trinaing couldn't iopen the box before). Everything is nice inside. I just regret one ear is missing to my chariot head. It looks like broken. I have no luck I especially like the statue with the secret box.

I just noticed that the Treasure set is listed in the Limited Edition section- did your set come numbered? There wasn't any mention (that I recall) of it beign limitedconfusion!
also have the same ? w/ the Ancient treasure set Posted by MythicParty - 2013/09/15 22:02
Ditto on that same question- & glad someone else both noticed/raised it.
Guessing it's a website misplacement?
