With Jeff's kind permission, I am posting this here to ask for the help of my fellow gamers everywhere.

"FELLOW GAMERS! "City of Heroes", the super-powered MMO, is facing shut-down.

Those of us who love this game would really appreciate your support in our efforts to save it.

Please, take a moment to go HERE for the information on the Write-In Campaign being waged at Paragon Wiki:

If we do nothing, we know we will lose a great game. If we do something, we have a chance. Why not do something?"

Thanks in advance, everyone!	
Yours truly,
