

Catacombs Floor Packs

Posted by David Wasilewski - 2013/02/02 06:24

Hi Stefan/Jeff

I was just wondering if and when you would be selling the individual (packs of 5) catacomb floor sets? I have bought 4 sets of the Ctacombs and they're AWESOME. My only issue is that there isn't enough floor for me to make the size of set up I want to without having to use normal dungeon floor pieces.

Did you send any to Thod in Europe? Or will they only be available state side?

Thanks

Dave

(really looking forward to catacombs II) !

Sorry, I meant to post this in the US "ask DF" bit of the forum. But it can stay here as Thod will know the answers.

A 6x6 floor pack (6 pieces, each a 6x6 piece) would be awesome.

Dave

I have limited numbers. I will work out how I best distribute them in a fair way. So yes - I will ensure you get some but can't sell you half my stock.

It would be good to hear from Stefan if Catacomb 2 has some large floors. A 6 by 6 floor is the equivalent of 9 small ones, even a 6 by 4 covers more as a single box of 5 small ones.

O.k - fair enough. No problem.

Just let me know the maximum number I can buy after you've worked out the best and fairest way of dealing with the demand and supply issues!

Yes, if there could be some 6 by 6 pieces made available, that would solve the problem!

Spiffing!

I look forward to this set being released with the impatience of a two year old....
