Hi all

I just wanted to share some photos of the torch walls I finshed wich led to me lighting up a Mini. Hope you like them.

Congratulations!!!

Beautiful and very atmospheric.

You have 6 Wall-LEDs? How many hours did it take for the conversions?

Are the batteries in the floor?

The Mini is awesome!

Thanks.

I moded twelve and I am working on another 8. the most time consuming bit was dremiling out the bottom to put in the tea light mec, but it probably took about an hour each. The mini on the other hand took 8 to 9 hours to get the lighting in.

Nice! Good job. Some more photos (not in the dark) would be nice so we can see the detail of your work.

Nice work Lord Azzie!

Would you care telling us more about your project, as I did here?

What batteries did you use?

Which LED you used? ...from where?

Could you show us the back side of the walls?

Is your Dremmel sculpt somehow hidden?

Thanks
