Nice setup, that color scheme does look good. Also like the use of the classic miniatures.
Feymous, those look like Ral Partha Skeletons for the most part. Not sure on the one with the rectangular base.

Thanks Feymous and M4jumbo. The skeletons with helmets are old Ral Partha. The other one is from Mithril miniatures.

Arcarius2001 & M4jumbo,
Thanks for the response. I'm always on the lookout for new places to get cool mins. I'm pretty sure you can never have too many. I certainly hope that's the case, since I seem to have become addicted to the little things:)
