Suggestions	for	Game	Tile	Painting	Videos

Posted by ced1106 - 2013/03/28 22:13

I would like my miniature bases to best match the game tiles. As a n00bish painter, I'm requesting a video tutorial for help!

I have the following bases:

- * Flat base molded to the figure (eg. D&D miniatures)
- * Slottabase bases (eg. GW)
- * Broccoli bases (eg. Reaper)

I would like some advice for a "quick and dirty" way to match the game tiles, as well as a more display-level way of doing it.

These methods look pretty promising:

Thanks!!!
