Bribing Stefan for icy chasms and hellscape chasm Posted by jgardner44 - 2013/04/12 20:03
So how much do I need to bribe Stefan to sculpt an icy chasm set and a hellscape chasm set? Its good to be able to stack higher with builds.

If I were you I'd open at 1% of the Kickstarter's final gross If I were Stefan I'd hold out for 10% of the Kickstarter's final gross
For Ice Chasms, I'd like to see the walkway piece transition from painted resin to clear (or frosted) plastic. Stalagmites might also be done as ice instead of frost-covered stone.

Exactly. Just paint it yourself, add some ice and that's done!
