demon doors pic needed Posted by dungeonmastermark - 2013/10/25 01:19
So I am thinking of a custom paintjob for my demon doors
anyone have a pic of the red next to factory green doors for comparison?
I might try to make some in a goldish color and make a few with blast marks

I haven't gotten my (unpainted) tiles yet (due tomorrow!) My buddy sent me one of his tho. Maybe you can photoshop red over it? ;-)
