Just a quick post (amongst the many) to say that my 5 sets + 6 expansions have arrived here in the UK. They were routed via Hamburg in Germany.

I am really REALLY pleased to find that all the p&p I paid to ship outside of the USA to Europe included all the Duty and Taxes. I now have some 'free' money that I will keep set aside for the Sewers and Catacombs II sets when they appear in Thods European DF Shop.)

Couple of pics - (a). 1 outer box and (b) 16 boxes + tote bag. in total: (20kg = 44 pounds in weight.)

I am now going to spend a day unpacking, checking and setting up a GT dungeon. :D (Booked a couple of days off holiday this week. The excellent courier tracking was great fun watching my GTs travel across Europe and then the UK!)

My first comments have to be:

- * Excellent Logistics. (Overseas must add additional complications you navigated these well and certainly to my benefit)
- * Brilliant fast service. (Before the end of October as expected even as far afield as the UK) http://www.dwarvenforge.com/images/fbfiles/images/Screen_Shot_2013_10_28_at_15.jpg http://www.dwarvenforge.com/images/fbfiles/images/Screen_Shot_2013_10_28_at_15-e612fdd0ecf82a afb6545a6c6a27ac1f.jpg
