Trading posts would be better placed in the Questions or Gaming Talk sections of the forum. This section is for discussions of the mapping software.
If you have GameTiles you are willing to trade, please provide a list of which ones you have. If you are looking for specific GameTiles you are trying to get, please provide a list of which ones you want.
Finally, a more descriptive thread title (like "Mayya GameTiles Trade" or "Want to Trade GameTiles?") will get a lot more of the people you are trying to reach to open the thread.
Good luck with your trades, and welcome to the forum!
