A list of the sets below, I just don't use them anymore. One piece is green from castings... Minor damage to stalactites on caveers, used, but all in original boxes. Old style with bow ties.

Traps 1&2  
Wicked Additions 1&2  
Octagonal Room  
Narrow Passages  
Advanced builder  
Room and passage 2x  
Cavern set 2X  
Cavernous river  
Cavernous lake

Looking to shift the lot.

What are you asking for them?

Not sure tbh, I haven't been around the forum, so I'm not sure what the demand is for them. Especially with the kickstarter... In the US FYI

Check eBay. See if any of the sets you have are listed. That's the going rate.

Checked Ebay and the prices are all over. I'm looking to get these to a good home. I paid \$1300 or so for the lot, looking to get something north of \$1000 out of them plus shipping.

You'll have a lot better luck selling them off individually. \$1000 is a lot of cash to shell out at once, especially during the holidays.

Where in the US are you located? If you are close to someone, they could save quite a bit in shipping by meeting with you and save a substantial amount in shipping. That may be enough to sway someone into buying.
