Question about	photos	in the	Forum
Posted by L - 2005/03/18 1	7:42		

,

Awhile ago, it looked like some of us had reached a limit with the photos we could post -- we had to delete older pics to post new ones.

Then the site got hacked and everything went away.

I had taken 3 -6 pics down to post new ones before the hack, and since then I know I've posted a LOT more.

So was that limit part of the hack? Was it an old protocol that was gotten rid of after the fix? Is there no limit now?

Just wonderin'. If there is a limit, I definitely re-voice my interest in someone official taking some pics and putting them on the DF Gallery page. Shame to lose these forever....
