WOW! Great looking stuff! Did you scratchbuild the torture chamber accesoires? If not, who manufactures them? I especially like the guillotine and the piles of bones.
I really like the minis,too! Great paintstyle you have there! Who's the manufacturer?
Cheers

No I bought the torture chamber accesories and glued them on bases. They are from a old company Harlequin as far as I recall. I actually dont recomend them since they are crude sculpted, but since i dont now about any shopp in sweden selling Grendel i had to make the best of things availible. The pile of bones are made from GW skelleton and zombie plastic regiments. The mines are orcs from the Cronopia range I use them as hobgoblins.
