Well, at least the fantasy stuff I was looking at and the cavern set. I was looking a few weeks ago and it was the same story, and I noticed a thread in May asking when stock would be replenished. Do things restock and then sell out that fast, or is there some problem with supply?

I'd hate it is DW was halting production on the fantasy and caverns sets in favour of Sci-fi and limited edition sets.

So when is the stuff going to be restocked?

Gavynn

### Why is everything out of stock?? Posted by L - 2005/08/11 21:46

A bunch of new stuff is on the way - but it won't show until November, sadly. Check the thread with the title "New DF in stock November 15th!!!" or something like that, from the admin.

I think DF is too small a company to keep a large supply of inventory sitting around in the warehouse. They have to keep things moving, which means they will be out of stock on a lot.

L

I'd hate it is DW was halting production on the fantasy and caverns sets in favour of Sci-fi and limited edition sets.

Well I'd hate it if the halted prodcution on Sci-Fi and only did Fantasy, i want them to do both.... (but put out a new Sci-fi soon please)

Here is our restock plan for 2006. This is subject to change.

Nov. 2005 Room and Passage Set Fantasy Floor Set Fantasy Starter Set 6 x 6 floor new doors

Feb. 2006 Cavern Set Cavernous Passage Set Wicked 1 Wicked 2 some items from above

June 2006 Advanced Builder Set

This is preliminary, as the restocking will be driven by sales of new and old sets. We hope to NEVER run out of our old core sets again.
