Sometimes DF is pretty good about updates and keeping us in the loop, but sometimes definitely not. I

think they want to be 100% sure before rthey speak up so people aren't disappointed, but honestly I'I prefer to get continually changing updates than these loooooong periods of silence.

Last I heard the Chasm set was suppose to be back in stock this winter - still waiting and no new updates have been forthcoming....

Thanks for all your patience.
Things have been in flux here at DF as Stefan has hit a period of inspiration, and he is developing some very nice sets.
We should have lots of info you over the next few weeks as we will have photos of the new upcoming Elven Set and exacting info on coming re-stocks.
The previous year has been a bit lean on development of new sets which always allows us to do more restocks but everyone should be very happy with the next couple of years as many new sets are coming from Stefan.
Sonew pics next week of the Elven Set and restock info by the end of the month. Thanks for your patience and support.

Any word yet on what's going to be restocked? The Cavern stuff on e-bay is getting outlandish, so I'm hoping some of that is coming in.
