How I Used DF...

_____

I recently used a picture of a Dwarven Forge setup to show the flexibility of a product I make for creating one night's gaming in 30-seconds. The product includes a map, and I had that map created by drawing on a dry-erase mat, with Wizards of the Coast tiles, and with Dwarven Forge.

The DF, of course :), looks 100 times better than the others. Thanks, guys, for making such a fun and visually interesting product!

And if you want to know more about the product (Dungeon Deck: Quests), you can check out our Kickstarter here.

Keep making such awesome stuff, guys!

Hi Jim

Yes - I saw you on Kickstarter. Good luck.

Indeed - DF should work pretty fine for most of your layouts as far as I can tell.
