Dwarven Forge - Dwarven Forge Generated: 15 April, 2014, 23:47 Hellscape on Facebook (new pic) Posted by Thraug - 2013/02/14 23:47 The DF page on Facebook has a pic of the new Hellscape set, with a caption "Something wicked this way comes..." I believe this is a new pic: https://sphotos-b.xx.fbcdn.net/hphotos-prn1/66705_10151465651273855_156923946_n.jpg Re:Hellscape on Facebook (new pic) Posted by Thod - 2013/02/15 01:30 What a shame - the nice piece is obfuscated ... Actually at Conception you you could see the piece on my table and there is even a lucky gamer who won it at the tombola. I could go digging for a picture if I get promises for protection from you here. Can't stand Zaltars wrath on my own. PS: enough protection promised and I might even try to get the piece on vine in my twitter stream provided I manage to figure out how to upload it. I like those side pieces that can be used as stairs to a second level.

That's a great piece! A must have for anyone with DOE sets!
How will the piece be offered?

The Gate will be a separate piece. I will offer it here in Europe - but it might go on sale a day or two after the US. I will make it available as quickly as possible once they have announced it.
And yes - I know when it 'should' become available - but only the date / not the time.
Should go up to the other computer and see if I have another pic.
